🎓 EDUCATION

Lovely Professional University,
Master of Computer Applications
2017 – 2019

Chaudhary Charan Singh University,
BCA - Bachelor of Computer Application
2014 – 2017

💻 TOP SKILLS

Flutter
Swift
SwiftUI
REST APIs
Supabase
Firebase
Socket.io
Core Data
In-app purchases (IAPs)

🏆 HONORS-AWARDS

Academic Excellence Award

Top Performer – BCA

**Indian Science Congress
Participation**

📜 CERTIFICATIONS

Flutter & Dart - The Complete Guide
iOS 13 & swift 5 - The complete iOS
App Development Bootcamp
Mobile Development workshop
iOS App Developer Training

👤 SUMMARY

Mobile Application Developer with 7+ years of experience building high-quality iOS and Flutter applications. I specialize in developing scalable, user-friendly, and performance-driven mobile apps using Swift, SwiftUI, Flutter, and Supabase.

👜 EXPERIENCE

Mobile Application Developer (iOS & Flutter), Sunfocus Solutions Pvt. Ltd.

03/2025 – Present | Sahibzada Ajit Singh Nagar

- Developed and maintained mobile applications using Flutter and iOS (Swift)
- Integrated Supabase backend with authentication and real-time data handling
- Worked on scalable architecture and reusable components
- Collaborated with cross-functional teams to deliver high-quality applications
- Enhanced UI/UX for better user engagement

Senior iOS Developer (Swift, SwiftUI), Sunfocus Solutions Pvt. Ltd.

09/2022 – 03/2025 | Sahibzada Ajit Singh Nagar

- Developed and maintained iOS applications using Swift and SwiftUI
- Implemented complex features and integrated REST APIs
- Improved app performance and reduced crashes through optimization
- Collaborated with backend and design teams to deliver high-quality applications
- Followed clean architecture and best coding practices

iOS App Developer, Whizcamp

12/2021 – 09/2022 | Sahibzada Ajit Singh Nagar

- Developed iOS applications from scratch using Swift
- Implemented core app features and API integrations
- Worked on multiple client projects with different business requirements
- Improved app stability and performance through debugging and optimization

iOS Developer (Swift), Xicom Technologies Ltd

04/2021 – 12/2021 | Chandigarh, India

- Developed and maintained iOS applications using Swift
- Implemented core features and integrated REST APIs for client projects
- Improved app performance and resolved bugs to enhance user experience
- Collaborated with cross-functional teams to deliver scalable applications

iOS Developer (Swift), Zapbuild

06/2019 – 03/2021 | Mohali

- Started professional career as an iOS developer working on real-world applications
- Developed core features using Swift and integrated REST APIs
- Worked on multiple client-based projects with different business requirements
- Gained strong understanding of mobile app architecture and debugging
- Collaborated with team members to deliver stable and scalable applications

iOS Developer Intern (Swift), Zapbuild

01/2019 – 05/2019 | mohali

- Assisted in iOS application development using Swift
- Worked on basic UI components and debugging tasks
- Learned mobile development fundamentals and team collaboration

PROJECTS

Market Ember

01/2026 – 03/2026

- Built a cross-platform mobile app using **Flutter**
- Integrated **Supabase (Auth + Realtime DB)** for backend
- Designed scalable architecture and reusable components
- Optimized performance for smooth and responsive experience

Inspire Me Wellness

12/2025 – 02/2026

- Developed a wellness tracking application using **Flutter**
- Integrated **Supabase (Auth + Database)** for secure data management
- Implemented AI-based notes for personalized wellness insights
- Enabled tracking of habits like mood, sleep, hydration, and cycle data

Redverse

10/2025 – 11/2025

- Developed a mobile application focused on voter awareness using **Flutter**
- Integrated **Supabase** for authentication and real-time data management
- Designed modular architecture and reusable components
- Built responsive UI/UX and optimized app performance

SpendScope

11/2024 – 01/2025

- Developed an expense tracking application using **SwiftUI**
- Integrated **SwiftData** for authentication and database management
- Implemented budgeting, expense tracking, and financial insights features
- Improved app responsiveness and performance

C Template

01/2025 – 02/2025

- Built a Flutter-based application that provides ready-to-use templates for social media content
- Enabled users to browse and render templates using cloud-stored assets (Firebase Storage)
- Designed a lightweight system where users can generate content and use it across external apps

Roots & Recipes

12/2024 – 01/2025

- Developed a mobile application using **SwiftUI** for storing and managing recipes
- Implemented voice input functionality for efficient recipe capture
- Designed a clean and intuitive UI for improved usability

BlackListed

09/2024 – 12/2024

- Developed a social networking platform enabling professional networking and community engagement
- Implemented authentication, real-time messaging, and user profile management features
- Built integrated marketplace modules for product listing, order tracking, and inventory management
